About

OSP

Online Show Programme

Dogs New Zealand (Dogs NZ) has now fully developed and completed the Dogs NZ Online Show Programme (OSP).

Dogs NZ has always had a specialist show programme used solely for the national dog show. A few years back this was updated to an online version and because of this it made sense to offer this to our clubs to use as well.

So the process started to streamline our whole show process, we started with the schedules and then onto OSP to streamline and integrate with the schedule process.

Many clubs, have helped us along the way by trialling this programme in its beta stages. Many thanks to all the patient show secretaries who helped in the development of this programme.

OSP uses the Dogs NZ registry as its source data – this means that only the most accurate information is used. Dog titles and awards are updated, dogs ownership and member(s) financial status are checked.

OSP allows the complete show process to be done electronically, from collecting entries, numbering dogs, to entering results for marked catalogues and producing the challenges.

Results loaded through OSP will be available for viewing and this automatically populates the Top Twenty Obedience Competition. Using OSP for your results automatically supplies a marked catalogue to Dogs NZ.

Many of you have been using OSP to enter shows and the amount of users is steadily growing.

OSP is available for all clubs to use, also any companies that your club uses to run their shows. This can be accessed via your club page.

From OSP you can:

- add entries manually or open show to members to enter
- manage multiple shows
- log and manage payments
- send automated emails of all entry information to every competitor
- produce Reporting sheets or ring running orders
- Emails entry summary
- automatically email reporting sheets
- check dog details
- be notified of unfinancial members
- number dogs and produce files for number label
- produce entry data for your catalogue
- produce Stewarding Sheets
- have your levies automatically calculated
- enter your results (Internet access required)
- produce marked catalogue
- enable you to produce challenges.

Dogs NZ is here to offer IT support services for OSP. If you would like more information on OSP please do not hesitate to contact Sue Conner on 04 910 1529 or website@dogs.org.nz

Online Show Programme (OSP)

Getting started

Introducing OSP

OSP is an online show programme that is available for all clubs to use to help manage the administrative side of a dog show. Once the show application process has been done, the applied for show will appear on your club page under 'Upcoming Shows'.

Note: If you are going to use OSP you need to add this information into your schedule to let members know.

| Upcoming Shows | | | | |
|----------------|------------|--|----------------------------|------------------------------|
| Show ID | Show Date | Show Type | Schedule Submitted | Online Show Setup |
| 18242 | 04/02/2017 | Championship Show (2) BENEFIT SHOW (1) | View Proof | Show Setup ✓ |
| 18243 | 03/02/2018 | Championship Show (2) | | Show Setup |

There are different ways to manage your entries:

Members can enter online directly, you as secretary can manually enter them or you can do a combination of both.

The OSP Menu

Once you have submitted your show schedule, you can then set up OSP for your show. So logon as a club, click Show Setup (as above in yellow) and you will see the following screen.

| Select Show(s) To Manage | | | | |
|--------------------------|---------|------------|--|---|
| Manage | Show ID | Show Date | Show Type | Show Mode - select next step after completing current step |
| <input type="checkbox"/> | 18242 | 04/02/2017 | Championship Show (2) BENEFIT SHOW (1) | <input checked="" type="radio"/> Setup <input type="radio"/> Entry <input type="radio"/> Catalog <input type="radio"/> Show <input type="radio"/> Old |

Click manage and Setup on Set Show/Mode page (as above)

The four show stages are:

Setup Mode

Allows you to setup and modify your show parameters, such as entry costs, available classes etc, and also to add your judges.

Entry Mode

Allows you to add, modify and delete entries and manage payments. You can automatically email entry information for checking. You can also produce entry summary information (such as a reporting sheet), provides email addresses and manual addresses.

Catalogue Mode

Allows you to set show numbers, set group and breed orders, and create a catalogue.

Show Mode

Allows you to manage payments, scratch entries, calculate show levies, produce reports, print steward sheets, print challenges, enter show results and produce a marked catalogue.

Please note you can navigate backward and forward through the stages at any time.

Setup Mode

Setup Show

Is where all your show information is added. The show date and type will automatically appear on this page and your show will be given a unique show ID number see below.

Note: This number will appear throughout the programme as file names etc.

On

Show Start Date: **04/02/2017**

Show Type: **Championship Show (2) BENEFIT SHOW (1)**

Show ID: **18242**

this screen page you will add your start date (once the start date arrives the show will automatically appear live for members to enter online) and a closing date (once the closing date arrives the show will disappear from the list available for members to enter).

You also add:

Catalogue cost information, camping prices, catering prices, club member discounts, multiple entry discounts. If there are multiple shows you add these (maximum of 6).

Payment information – bank account for internet banking. This is your club’s account. You can also add in the notes how you would like payments referenced.

You then add the classes and stake prices against all the classes and stakes etc you will be holding. For Obedience Shows, the set up process is the same.

The programme can tell from the club and show type whether it is a breed show or an obedience show and will populate the relevant show requirements. You can add stake classes if you have specific ones not listed.

Judges Info

Enter the judges’ information on this screen. This is used for the marked catalogues when loading the results.

Add Entry

Add membership number from entry form here – this will bring up a new screen with the owner’s dogs. Click the dog(s) you wish to enter and the relevant classes or tests will show. Enter dogs and then click Done. These entries are now entered into the show. Payments can be added here too.

Add Entries For Member

Enter Member Surname or Membership Number:

[Casual Entries/breed](#)

Casual entries are also on this screen (click add casual entry, fill in information you have and registration number of the dog). This then allows you to enter the dog without the owner being a member).

Entries & Pmts (payments)

This screen allows you to manage the entries you have. You can edit an entry, add a payment, email the competitor. It also shows you the total of entries you already have (see below).

Show 18242 RAF/NAF's

Total number of entries in show 1 : 104

Total number of entries in show 2 : 104

Total number of entries in show 3 : 101

[Reports Show All Show Outstanding](#)

You can toggle on reports (see above) to show all entries or only those with no payments, by default this has all entries.

To add payment, click on payments (see diagram above) next to member ID then a new screen appears (see below) you click Add Payment. Payments are added from your club’s bank account – you will need to print these off and then manually add them. If the entry is a manual one, you can add payment at the time of entry (on same screen). You can do this daily, weekly or whenever it suits you to do this.

Deleted. No longer available - regulation changed - These are no longer accepted. All dogs must be registered before entering a show.

Entry Summary (reporting sheet)

As you add entries they are automatically formatted into a table for using as your emailed reporting sheet – this table can be saved as an html file and opened and saved in word as a docx file. This is also available as spreadsheet under reports - Breed class summary. You can set the order of your show and the summary will show the same order.

The table is by Group (See Toy example)

Email Entry Info

When all entries are in, you can send a confirmation email to all entrants which itemises their entries and payments. This is useful and can help eliminate problems on show day when people think they have entered and haven't or have accidentally entered the wrong dog etc. Just click the here word and this will automatically email all entrants with an itemised summary.

Delete Entry

Click here to delete an entry from the show.

Email Addresses

When you have completed your reporting sheet and sent out your entry info, you can then email this out to all entrants by copying the email addresses (see below) and pasting them into your email. You then add the reporting sheet as an attachment and send out.

Catalogue Setup

Once you have entered all your entries and the show has closed you are ready to move to the next step. It is important to run through steps 1 to 5 as this performs some important functions.

It is important that you only number the dogs once, as if you add entries after you have numbered the dogs this can cause errors and you will need to rerun all the steps here.

Please note if you see a numbering inconsistency message (see right) you just need to re-run steps 1–4.

Notes on Steps 1–5

By default when a member enters a dog into a show only basic details are saved such as the member DogsNZ number, the dog's DogsNZ number, show entered and class entered. Clicking the link on Step 1 above automatically adds details such as dog names and awards/titles and owners, second kennel names and the breeders names etc.

Step 2 is optional and allows you to vary the order that groups and breeds appear in the catalogue

You need to create show numbers prior to printing the catalogue by clicking the link in Step 3. Stakes classes will appear in a random order and in random locations in the catalogue unless you click the link in Step 4 and drag the classes into the required order.

When you click Step 'Print catalogue to screen' a new browser window will appear displaying the catalogue layout.

If you are satisfied with the catalogue layout please proceed as follows:

Right click on the catalogue body and left click on 'save page as' on the dialogue box that appears.

Save the page on your computer then minimize or close your web browser.

Open Microsoft Word or your word processing program and use it to open the html catalogue document.

Add cover pages and fix any page splitting issues etc.

Save your document as an ordinary word processor document.

Print the document.

Please note that unpaid entries will appear in the catalogue unless you delete the entries via the 'Manage Entries' page.

Email Files (Reporting Sheet)

To upload and email your reporting sheet to all exhibitors, firstly save your reporting sheet as a pdf. Call the pdf the show id of your show (eg 20385.pdf).

Click on email files and. Click browse to where you have saved the pdf and then click upload. Once uploaded click on 'Compose Email,' add subject and extra information if required. Click Email.

Setup Catalog for show 18294 for [redacted]

Please complete the following steps in the following order when creating or updating your catalog

1. Update all entry details [Click Here](#)
2. Setup group order and breed order (optional) [Click Here](#)
note: default sorting is by breed code which is not alphabetical
3. Setup stakes class order [Click Here](#)
4. Create show numbers for entries [Click Here](#).
5. Print catalog to screen [Click Here](#).

Important: If you have already completed the above steps and an entry is changed or added you **must** rerun these steps or the changed entry will not appear in the correct location in the catalog.

Notes On Steps 1-5 Above:

1. By default when a member enters a dog into a show only basic details are saved such as the members NZKC number, dogs NZKC number, show entered and class entered. Clicking the link on Step 1 above automatically adds details such as dog names and awards/titles and owners and breeders names etc.
2. Step 2 is optional and allows you to vary the order that groups and breeds appear in the catalog
3. Stakes classes will appear in a random order and in random locations in the catalog unless you click the link in Step 4 and drag the classes into the required order.
4. You need to create show numbers prior to printing the catalog by clicking the link in Step 3.
5. When you click Step 5 'Print catalog to screen' a new browser window will appear displaying the catalog layout.
If you are satisfied with the catalog layout please proceed as follows:
 - o Right click on the catalog body and left click on 'save page as'.
 - o Save the page on your computer then minimize or close your web browser.
 - o Open Microsoft Word or your word processing program and use it to open the html catalog document.

Scratch Entry

If you need to scratch an entry after numbering the show, you must use this to scratch the entry. Do not delete a dog after you have numbered them. Scratching an entry will remove the entry without affecting the numbering. The dog will not appear, but the dogs will not be renumbered. On screen search for dog/owner and change no button to a yes.

Challenge Certs

Challenge certificates can be printed two ways.

- In OSP programme. To do this you need to test the challenges on the certificates using your printer. See right you can alter the margins to line them up on any printer. Once you have the challenges printing correctly on your printer – you simply add the dog’s show number as above. Click print, then add the next dog etc.

Please ensure that you have completed steps 1 to 5 on [Catalog Setup](#) page before continuing

To print certificates offline via word template click [here](#).

To return to this page after you have printed your certificate click on any text.

Print Certificate

A new window will open with the dogs info ready to print

Enter Dog's Show Number

Enter date certificate awarded (optional)

Enter left printing offset (only adjust if printing is misaligned)

Enter top printing offset (only adjust if printing is misaligned)

- A word version of the challenges for those shows where there is no internet access available on the day. To do this you will click on the link above (in yellow).

You will have one or two file creation options depending on the number of shows. Click on Show create csv, open and save as an excel file. Download and save challenge template. Open template and mail merge to the challenge file(s) you have just downloaded. Follow the full instructions on the help doc (as above). The number of shows will dictate the number of merge files. (needed as the date changes if over two days).

Printing challenge certificates using a word template

Create CSV for show 2 (All Breeds Championship Show) held on 15/04/2018: [Create CSV](#)

Once you have produced your word document - practice using these with your challenge - you may need to tweak these slightly depending on your printer.

You can now use these word documents to produce your challenges on the day. No need for internet access. To print challenges, use your find or navigator to find the challenge you are after by entering show number , then printing.

Please feel free to contact Sue Conner at Dogs NZ if you need help with doing this.

Reports

Numerous reports can be created in this section. Here is a list of the reports you can run. Feel free to run these as many times as you like – you can open the CSV files in excel. Before creating/downloading any csv files please run through the steps on the catalogue Setup section

How to produce labels for number cards

Under Reports, click number labels (see in yellow), create csv file and save this on your computer (where you will be able to find it). Open csv file and select all by clicking the triangle between the A and the 1) then sort by column A (order column) - smallest to largest to put in numerical order. Save.

Go to templates on the menu under Reports (see graphic left Reports in red). Click template.

Mailout labels 2sided MASTER (No address).dotx (This template creates a number label for front and a details table for back)

Click this and open Template

Click yes to this screen (this is just referring to link information)

The template will open and have merge information see above right. Ignore odd layout.

In word click MAILINGS tab, then click select recipients from drop down

Click use an existing list, then navigate to the csv file that you saved at the beginning.

Click preview to see your labels, once happy click Finish & Merge, this will merge the information and open a new document with the completed labels (see left)

Important: Before creating/downloading any csv files please run
