11. FCI/CACIB SHOWS

This regulation is applicable only in respect of those shows in which a “Certificat d’Aptitude au Championnat International de Beaute de la FCI” (CACIB), award for the title “International Beauty Champion” can be awarded.

For these events a fee is charged by the FCI for every dog appearing in the catalogue, the amount of which is to be determined by the General Assembly of the FCI. This fee is due, on receipt of the catalogues and the CACIB/Res CACIB lists of the show in question. This fee must be paid even if no CACIB awards are granted. (The fee is listed on the current Schedule of Fees on the Dogs NZ website). It is the responsibility of the Member Body or Affiliate thereof conducting the show to ensure that this fee is paid.

11.1 Basics

11.1.1 In accordance with the FCI Associate Member Agreement, NZKC will conduct a minimum of 2 (two) CACIB shows per year. Notwithstanding, NZKC will consider all applications received from any member body of NZKC or an affiliate thereof.

11.1.2 NZKC are solely responsible for determining in which dog shows in New Zealand the competitions for the CACIB can be held. These shows, which will also have been sanctioned by the FCI, must be indicated and designated as follows: “International Dog Show with attribution of the CACIB of the FCI”. The catalogue of these shows must be clearly marked with the FCI logo and the following expression: “Federation Cynologique Interationale (FCI)”.

11.2 Applications

Applications to have a CACIB International Dog Show sanctioned by NZKC, and subsequently by the FCI, must be sent in the first instance to Dogs NZ no later than 18 months prior to the intended show date for consideration. If approved by NZKC the application is then to be forwarded to the General Secretariat of the FCI no later than 12 months prior, and no earlier than four calendar years prior to the proposed date of the show.

11.3 Restrictions

11.3.1 Only one full CACIB can be awarded in each sex, in every recognised breed and breed variety – in accordance with the FCI Breed Nomenclature on the same day and at the same place.

11.3.2 No other CACIB show can be held the same days as a World or Section show takes place on that particular continent. Exceptional circumstances will be dealt with by the FCI General Committee.

11.3.3 The FCI will only authorize CACIB shows to be held on the same day provided that these events are held at a distance of at least 300km apart. In case this distance is less than 300km, the approval can be given provided that the organiser who first submitted an application gives their consent to the second applicant. In this case, appropriate dividing up of the FCI groups according to the FCI Breed Nomenclature, taking the show venues and days into consideration is recommended.

11.3.4 At CACIB shows a breed must be judged in one single day, and the breeds of the same FCI group should also be judged in one day. However, it is possible to divide the groups

over two days if needed for organisational reasons. The decision regarding sanctioning CACIB shows is the responsibility of the Executive Director of the FCI.

11.4 Special Requirements / Admission of Dogs

- 11.4.1** The dogs' welfare and health must be of **UTMOST PRIORITY** at all dog shows.
- 11.4.2** The organisers are requested to add the following message in the show catalogue, giving it sufficient visibility: The exhibitors are responsible for the welfare of the dogs at an FCI international dog show. It is forbidden to expose a dog to a situation that can be dangerous for its health and welfare, such as for example, leaving it in the car in excessively hot or cold weather and/or treating it in a cruel manner.
- 11.4.3** The organisers must ensure that the only breeds that will be shown are those for which breed standards have been definitively or provisionally accepted by the FCI and which are registered with the studbook or with the appendix to the studbook (waiting list) of an FCI member country. The same will apply to a non-FCI member country whose studbook is, however, recognised by the FCI. Breeds that are not yet recognised (neither definitely or provisionally) by the FCI, must be recognised at a national level and have pedigrees issued by a national kennel club that is a member or a contract partner of the FCI. These breeds cannot be incorporated in any group (they have to appear in a special section of the catalogue called "breeds not recognised by the FCI) and they are not eligible for the CACIB and for the various FCI titles. In addition, they cannot compete in the Best of Group finals. The normal FCI fee has to be paid also for each dog of these breeds. At all shows in which the CACIB's of the FCI is awarded, the division into groups must be in accordance with the current FCI Breed Nomenclature. In case this ruling would not be observed, the FCI reserves the right to refuse future authorisations to award the CACIB's at international shows.

11.4.4 These groups are as follows:

Group 1: Sheepdogs and Cattle Dogs (except Swiss Cattle Dogs)

Group 2: Pinschers and Schnauzers – Molossoid Breeds – Swiss Mountain and Cattle Dogs

Group 3: Terrier Group

Group 4: Dachshunds

Group 5: Spitz and Primitive Types

Group 7: Pointing Dogs

Group 8: Retrievers – flushing dogs – water dogs

Group 9: Companion and toy dogs

Group 10: Sighthounds

11.4.5 Group Judging

At all shows with few entries, the organisers are allowed to have different groups judged together in the ring of honour for "Best in Group" competitions; however this does not apply to World and Section Shows.

In accordance with the above provision, at FCI/CACIB Shows conducted in New Zealand, the following groups may be utilised:

Group 1: Sheepdogs and Cattle Dogs (except Swiss Cattle Dogs)

Group 2: Pinschers and Schnauzers – Molossoid Breeds – Swiss Mountain and Cattle

Note:

1. In accordance with the terms of the Associate Membership between NZKC and FCI all NZKC CACIB shows are to be conducted under FCI regulations, including group nomenclature and breed standards for the duration of the event. This includes the awarding of National Challenge Certificates.

Appendix 1

RAMP/TABLE/GROUND BREEDS

NZKC Show Regulations.

14.4 Ramps. At any show where a Ramp is available on the grounds, the ramp may be used at the sole discretion of the judge for those breeds listed in this appendix. The ramp may be transferred between rings. The Ramp must be constructed in accordance with the materials and dimensions as set out in Appendix 2 of these regulations.

Ramps can be used in an emergency situation to judge any breed.

Designated ramp breeds may be examined on the ground or on a ramp during breed judging according to the sole discretion of the judge and not the exhibitor. The entire entry in that breed is to be examined on the ground or on a ramp. However the ramp is not intended to be used during the group and/or Best in Show judging.

Emergencies

In emergency situations, with the approval of the Show Manager, breeds customarily examined on the ground may be examined on a ramp, not on a table. An emergency is defined as a temporary condition that arose immediately prior to or at a dog show. Convalescence from a medical procedure, illness and recuperation from injuries are examples of conditions that are not emergencies. The emergency use of a ramp may be allowed on a day and may be extended to include a cluster as well as judging either a group and/or Best in Show.
